1931 WHOLESALE CATALOG

Barteldes
SEEDS

SATISFACTORY SINCE 1867

THE BARTELDES SEED CO.
LAWRENCE, KANSAS

THE BARTELDES WHOLESALE CATALOG FOR 1931

TO THE TRADE

Gardening is again gaining in popularity and it will pay you big to push this very profitable line.

Be prepared to get your share of the very good profit in selling bulk garden seeds. Barteldes Seeds come to you in Handy Cans and these do away with the necessity of expensive equipment for the retailing of bulk garden seeds.

Barteldes Seeds are advertised in national and farm papers and they are favorably known to your customers. You don't have to take your time (as you do with non-advertised seeds) to tell your customers of the quality of Barteldes Seeds. Our advertising has done this for you.

We have a full line of garden seeds, flower seeds, field seeds, bulbs, plants, nursery stock, etc., and have the most complete line of seeds in the middle west.

Send in your orders. You will find our prices right and your customers will be well pleased with the quality of Barteldes Seeds.

TERMS

Initial orders of garden seeds are billed on terms of 60 days net or 2% for cash in ten days. Overdue accounts are subject to sight draft with exchange and without notice.

Field seeds, grass seeds, onion sets, supplies and fill-in orders of garden seeds are net cash. Barteldes Seeds are carefully tested and every precaution is taken that none but first-class seeds are sent out. It is well known that seeds of best quality may fail on account of weather conditions, improper planting or various other causes; therefore, we, the Barteldes Seed Co., give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, and we will not in any way be responsible for the crop.

These prices do not include charges for bags, baskets and barrels, which are extra.

We send out no seeds on commission.

EXTRA SELECTED STOCKS IN LEAD SEALED BAGS

This is of special interest to merchants who have a critical Market Gardener Trade. These gardeners are willing to pay good prices, providing they know that they are getting something extra fancy.

The packing of the seed in individual lead sealed bags builds up confidence in the seed. If you will offer these special strains to your customers you will find it an easy matter to build up a profitable trade on this line.

BEANS

Dwarf Green Pod Varieties

	2 bu. bag lots per lb.	Less than bag lots per lb.
BARTELDES STRINGLESS GREEN POD.....	Sold Out	
A new stringless bean which is about a week earlier than other varieties. Plants are bushy and erect. The pods are about 4½ inches long, bright green, oval round through cross section. The seeds are yellowish.		
BURPEE'S STRINGLESS GREEN POD.....	\$.17	\$.18
The pods are green, long, round, thick, free from strings and very meaty. This is the standard variety.		
EXTRA EARLY RED VALENTINE.....	.16	.17
An old favorite. Very prolific. Producing pods which are fine and tender when young.		
EARLY YELLOW SIX WEEKS.....	.17	.18
The pods are long, flat, and of bright green color.		
GIANT STRINGLESS GREEN POD VALENTINE.....	.17	.18
Similar to the Early Red Valentine, but about a week or ten days later.		
DWARF HORTICULTURAL.....	.17	.18
Pods 7 to 8 inches long, broad and rather stringy and fibrous. A fine soup bean in summer and a baking bean in winter.		
FULL MEASURE.....	.17	.19

Dwarf Wax Pod Varieties

IMPROVED GOLDEN WAX.....	.17	.19
The standard dwarf wax bean. The pods are large, slightly flattened, brittle, quite stringless when young, and of fine golden color.		
DWARF BLACK WAX.....	.16	.18
One of the earliest varieties. Pods about 5 inches long, round, meaty and of good quality.		
WARDWELL'S KIDNEY WAX.....	.17	.19
Pods about 5½ to 6 inches long, flat, straight, fleshy, brittle and nearly stringless. A popular market gardeners' variety.		
PENCIL POD BLACK WAX.....	.16	.18
One of the best. Pods 6½ to 7 inches long, round, straight and crease-backed. Strictly stringless, free from fibre, fleshy and brittle.		
DAVIS WHITE WAX.....	.17	.19
Pods 6½ to 7 inches long, straight but rather stringy, and clear yellow. The seeds are white and may be used for winter beans.		
CURRIE'S RUST-PROOF BLACK WAX.....	.17	.19
Popular with market gardeners. Pods 5½ to 6 inches long, flat and straight, but has some fiber and strings. An early and hardy variety.		

ASK FOR PRICES FOR LARGE QUANTITIES

Bush Lima Beans

	2 bu. bag lots per lb.	Less than bag lots per lb.
FORDHOOK BUSH LIMA	\$.23	\$.25
Plants are about 30 inches high and bear an immense crop. The pods are 5 to 6 inches long, delicious, and mature 8 to 10 days earlier than other limas.		
BURPEE'S BUSH LIMA20	.21
Plants about 20 inches high and very broad. Pods are 4 to 5 inches long and bear large white beans.		
HENDERSON'S BUSH LIMA17	.18
A very hardy, early and sure bearing Lima. The pods and beans are small but of good quality.		

Pole Beans

BURGER'S STRINGLESS GREEN POD17	.19
Is earlier and bears for a longer time than the Kentucky Wonder. Pods are up to 8 inches long, dark green, tender and stringless.		
KENTUCKY WONDER16	.17
The standard pole bean. Very vigorous, bears an abundance of pods, which are 8 to 9 inches long and nearly round.		
WHITE CREASEBACK17	.19
Hardy, early and matures all the pods at the same time. The pods are medium size, round and fleshy.		
LAZY WIFE18	.20
Pods are broad, thick, very fleshy, and stringless. The dry beans are white and good for winter use.		
CUT SHORT OR CORN HILL17	.18
Late, hardy and quite productive. Pods are green, 3½ to 4 inches long, straight, flat and somewhat stringy.		
WHITE DUTCH CASEKNIFE17	.18
Pods 7 to 8 inches long, straight, flat and somewhat stringy, but brittle and of fair quality. Can be used as either a snap or a shell bean.		
HORTICULTURAL OR SPECKLED CRANBERRY17	.18
Hardy and productive. Pods 5 to 6 inches long, straight, flat, stringless and of good quality. Pods are green splashed with red.		
EARLY GOLDEN CLUSTER WAX17	.18
The only wax pod among the pole beans. Pods are 6½ to 7 inches long, straight, broad and flat, very fleshy, fine grained but somewhat stringy. Pods are light waxy yellow and the beans are white.		
SCARLET RUNNER18	.20
Has bright scarlet flowers and therefore used for ornamental purposes. The pods are edible.		

Pole Lima Beans

LARGE WHITE LIMA18	.20
The standard pole lima. Pods 4 to 5 inches long and very flat. It is vigorous, productive, and matures in midseason.		
KING OF THE GARDEN LIMA18	.20
An improvement on the Large White Lima, the pods being about an inch longer, and generally contain four seeds.		
SMALL CAROLINA OR SIEVA LIMA17	.19
The beans are small like the Henderson's Bush Lima, but the plants make a large growth and produce an immense crop. It is a fine bean for winter use.		

ASK FOR PRICES FOR LARGE QUANTITIES

TABLE BEETS

	Per pound \$.60
EARLY MODEL	
The earliest in the list. The beets are of globe shape, dark red, sweet, juicy and small.	
BARTELDES EARLY BLOOD TURNIP60
A carefully selected strain of Blood Turnip Beet. It is very early, deep blood red, smooth, and cooks sweet and crisp. Fine for forcing, for spring, main or summer crop.	
EDMOND BLOOD TURNIP60
A second early variety with round, good sized, beets of dark red color.	
EARLY BLOOD TURNIP55
One of the standard varieties. Excellent for forcing, spring or main crop. It is early, dark red, round and smooth.	
ECLIPSE55
A very early variety with small tops and round, medium sized bright red roots.	
HALF LONG RED60
A second early sort and a good keeper. Larger than the round varieties and therefore a heavier yielder.	
DETROIT DARK RED55
A fine variety for home use, market garden or for canning. Roots are medium size, globe shaped and smooth; skin dark red, flesh red and zoned with lighter shade.	
CROSBY'S EARLY EGYPTIAN60
One of the earliest and one of the best for market gardeners. Roots are of flattened globe shape, skin dark and flesh a little lighter.	
EXTRA EARLY EGYPTIAN60
A very early beet, with small tops and flattened roots. Skin and flesh very dark and the latter zoned with lighter rings.	
LONG BLOOD RED50
The old standard variety for table and stock feed. An excellent drought resister, color deep red, flesh very sweet. Grows entirely under the ground.	
SWISS CHARD OR FOLIAGE BEET55
Does not form a root. The leaves are used as greens and the mid-rib is served like asparagus.	

SUGAR BEETS AND MANGEL WURTZELS

	100 lb, lots Per lb.	Per lb.
VILMORIN'S IMPROVED SUGAR	\$.25	\$.35
Skin is cream color, flesh white. One of the best for making sugar.		
WHITE KLEIN WANZLEBEN SUGAR25	.35
A long slender root which grows deeply into the ground. A heavy yielder and has a high sugar content.		
GOLDEN TANKARD30	.35
Flesh yellow, sweet and nutritious. Roots almost cylindrical. Fine for stock feeding.		
MAMMOTH LONG RED MANGEL30	.35
Enormous beets yielding 30 to 50 tons to the acre. Roots are quite cylindrical, grow well above the ground, light red with white and rose colored flesh.		
GIANT HALF SUGAR MANGEL30	.35
A large mangel with the great feeding value of a sugar beet. The flesh is white, crisp and very sweet. The roots grow well above the ground.		
SLUDSTRUP BEET (Stock)30	.35

BROCCOLI

WHITE CAPE	2.50
Heads compact, of creamy white color and good size.	
PURPLE CAPE	2.50
Similar to the above except that the heads are brownish purple.	

BRUSSELS SPROUTS

HALF DWARF PARIS MARKET	1.50
A hardy and productive variety with stem about 2 feet high, and heads about 1 1/2 inches in diameter.	

ASK FOR PRICES FOR LARGE QUANTITIES

CABBAGE

	Per lb. \$3.00
COPENHAGEN MARKET	
Heads large, round and solid, on short stems. Almost as early as Jersey Wakefield and a very popular variety.	
EARLY JERSEY WAKEFIELD	1.40
The most popular of early varieties. Has broad cone-shaped heads and grows erect.	
EARLY WINNINGSTADT	1.40
Maturs a little later than the Wakefield. Heads are large, solid, decidedly conical with bright glossy green leaves. A sure header.	
CHARLESTON WAKEFIELD	1.40
About a week later than Jersey Wakefield, but heads are larger.	
EXTRA EARLY COPENHAGEN MARKET	4.00
A select strain.	
STIRIN'S EARLY FLAT DUTCH	1.50
THE GLORY	1.75
Heads large, round, solid and on short stems. A very desirable medium early variety.	
ALLHEAD EARLY	1.50
One of the earliest of the large, round, flat-head varieties. Solid, uniform in color, fine for kraut making and for late sowing.	
EARLY SUMMER	1.50
About a week to ten days later than Jersey Wakefield. Heads medium size, round, somewhat flattened, compact, solid with outer leaves spreading.	
EARLY DWARF FLAT DUTCH	1.50
A short stem, second early variety that stands hot weather.	
LATE PREMIUM FLAT DUTCH	1.40
One of the standard varieties for market use. Heads are round, flattened, large and very firm. Has a medium stem and is hardy.	
LATE LARGE DRUMHEAD	1.40
Heads are dark green, large, flat and solid. Maturs late and used extensively for pickling.	
THE DANISH BALLHEAD	2.00
Heads are perfectly round, extremely solid, fine grained, bear shipping well and will keep far into the spring. Requires a full season to mature.	
SUREHEAD	1.50
Produces large, round, flattened heads of the Flat Dutch type.	
ALL SEASONS	1.50
Can be used as either a late or early crop. Heads are large, round and very deep. An excellent keeper.	
ST. LOUIS LATE MARKET	1.75
Popular with the kraut-makers. Heads are large, white and seldom burst. Stems medium.	
DANISH ROUNDHEAD OR SHORT STEM BALLHEAD	2.00
DANISH STONEHEAD	3.50
Heads about 8 inches in diameter, solid and of very dark purple color. The best keeper among red cabbages.	
MAMMOTH RED ROCK	2.50
Heads are large, round, very solid and of deep red color.	
DRUMHEAD SAVOY	1.75
Leaves are crimped or curled; heads are large, round, solid and mature late.	
CHINESE OR PETSAL	2.50
A distinct type used for salads.	

CARROTS

EARLY SCARLET HORN	\$.70
Very early, with small tops and blunt roots.	
OXHEART OR GUERANDE65
Roots are stout and thick, ending abruptly in a small tap root. Mature roots are 4 to 5 inches long, bright orange color.	
DANVER'S HALF LONG65
One of the best. A smooth carrot of uniform shape. Roots 6 to 8 inches long and tapering.	
CHANTENAY OR MODEL65
A medium early smooth carrot of deep orange-red color. Roots stump rooted and about 6 inches long.	
IMPROVED LONG ORANGE60
Good for table use or stock feeding. Roots 10 to 12 inches long, broad at top and tapering to a point.	
LARGE WHITE BELGIAN50
For stock feeding. Roots about 16 inches long, thick, white under ground and green above.	
LARGE YELLOW BELGIAN50
Similar to the white except that the roots are light orange below the surface and green above.	

ASK FOR PRICES FOR LARGE QUANTITIES

CELERY

Per lb.

GOLDEN SELF BLANCHING	American grown \$ 2.50
The best early American grown variety. Plants stocky, stalks solid, fine flavor and very easily blanched.	
GIANT PASCAL	1.75
Vigorous, productive and excellent for winter use. Leaves are upright, short and dark green; stalks are short, thick and very broad.	
WHITE PLUME	1.75
Very early and easily blanched to a silvery-white color.	
CELERIAC OR TURNIP ROOTED	2.00
Grown for the roots, which are turnip shaped.	

BARTEDES SWEET CORN

2 bu.
bag
lots
per
lb. Smal-
ler
lots
per
lb.

GOLDEN BANTAM	\$.13	\$.15
A most delicious corn. Very early, of golden color, and small ears. Always a good demand for Golden Bantam.		
EXTRA EARLY ADAMS09	.11
An extremely early field corn which is used for sweet corn Will stand very early planting.		
HOWLING MOB13	.15
A second early and very productive variety with large ears. Ears 9 to 10 inches long.		
EARLY MINNESOTA11	.13
Ears 8 inches long, 8-rowed, kernels very broad, sweet and tender.		
EARLY EVERGREEN14	.16
A selection from Stowell's Evergreen. A few days earlier than the Stowell's and ears somewhat smaller. A very valuable variety.		
STOWELL'S EVERGREEN18	.20
The standard variety. Ears 8 to 9 inches long, with 16 to 18 rows of deep, sweet grains.		
COUNTRY GENTLEMEN (SHOE PEG)	Crop	Failed
A very fine variety. Ears large, kernels small but deep and without any row formation. It matures late.		

CAULIFLOWER

Per
pound

EARLY DANSIH SNOWBALL	\$18.00
Especially popular with the market gardeners. The plant is dwarf, the outer leaves erect, while the inner ones protect the head. The quality is excellent.	
EXTRA EARLY DWARF ERFURT	16.00
The heads are of good size, solid, white and of fine quality. Can be marketed early.	
BARTEDES DANISH DRY WEATHER	20.00
A splendid variety for the west, as it stands hot, dry weather. It matures later than the Snowball, producing large, pure white heads of excellent quality. Our seed is selected in Denmark.	
EARLY PARIS	9.00
An early, sure-heading variety. Heads are rather small but form quickly on long stems.	

CHICORY

Per
pound

LARGE ROOTED OR COFFEE	1.25
The roots are dried and used as a substitute for coffee.	
WITLOOF (FRENCH ENDIVE)	1.50
The plants form long roots which are forced in frames or greenhouses and the lettuce-like leaves are then used as a salad.	

COLLARDS

GEORGIA OR CREOLE60
Plants grow to be 2 feet high, forming a cluster of tender leaves at the top. These leaves are used as green in the South and west.	

ASK FOR PRICES FOR LARGE QUANTITIES

CHIVES

Per lb

CHIVES.....	\$6.00
Resemble small onions and are used in soups.	

CORN SALAD

LARGE BROAD LEAVES.....	1.50
Used as a small salad throughout winter and spring.	

CRESS

CURLED OR PEPPER GRASS.....	.40
Small, curled plants used as a salad.	
TRUE WATER CRESS.....	5.00
Thrives only when roots and stems are submerged in water.	

CUCUMBERS

THE BARTELDES CUCUMBER.....	\$1.00
-----------------------------	--------

In the Barteldes Cucumber we offer the ideal cucumber for the shipper and the home gardener. The cucumbers are from 8 to 12 inches long, of a very dark green color which does not fade in shipping. This is of greatest importance to the grower and shipper who want their cucumbers to be attractive when they reach the market.

The flesh of the Barteldes Cucumber is firm, white, thick and with but few seeds. The Barteldes Cucumber is in high favor with the producers and shippers which is the best proof of its merit.

DAVIS PERFECT.....	.75
11½ by 2 inches. One of the best of the White Spine types. The fruits are long, smooth, tapering at both ends, with crisp, solid flesh.	
EARLY FORTUNE.....	.65
9 by 2½ inches. The finest type of White Spine. Fruits are slightly tapering, flesh white, firm, crisp and with few seeds. Color, rich, dark green.	
IMPROVED LONG GREEN.....	.75
12 by 2½ inches. Slender, more or less warted, tapering towards the stem end; color, dark green, flesh white and firm. Matures late.	
EARLY RUSSIAN.....	.70
5½ by 2 inches. One of the earliest. Similar to Early Frame, but smaller and shorter.	
EARLY GREEN CLUSTER.....	.65
5 by 2¼ inches. Early, fruit chunky, small, and borne in clusters in the center of the plant; light green in color.	
EARLY WHITE SPINE.....	.65
7 by 2¼ inches. A short, rather three-cornered cucumber; very productive and fine for slicing or pickles.	
EXTRA LONG WHITE SPINE.....	.65
10 by 2¾ inches. Fruits cylindrical, long, dark green in color and mature in mid-season.	
EVERBEARING.....	.65
5¼ by 2 inches. Similar in appearance to Early Frame but not quite so thick. A main crop variety and a fair pickler.	
ARLINGTON WHITE SPINE.....	.65
7¼ by 2¼ inches. Fruits are rounding at both ends, of bright, deep green color and producing early and in great abundance.	
CHICAGO OR WESTERFIELD PICKLING.....	.70
by 2¼ inches. A dandy pickling variety. Fruits are uniform and produced in good quantities.	
BOSTON PICKLING.....	.70
6¼ by 2½ inches. Fruits are short, smooth, symmetrical and excellent for pickles.	
JAPANESE CLIMBING.....	1.00
10 inches long. A climbing variety very useful for covering fences and trellises.	
WEST INDIA GHERKIN.....	1.00
2 by 1¼ inches. Fruits very small and covered with spines. For pickles only.	
LONG CHINA.....	2.00

ASK FOR PRICES FOR LARGE QUANTITIES

EGG PLANT

Per lb.

BLACK BEAUTY	\$3.25
The earliest large fruited variety. Fruits dark purple.	
NEW YORK ROUND PURPLE	3.25
The standard market variety. Plants are large and spreading, and produce four to six large oval fruits.	
EARLY LONG PURPLE	3.25
Fruits are club-shaped; 6 to 8 inches long, rich purple and of fine quality.	

ENDIVE

GREEN CURLED75
Leaves are bright, deep green and blanch very easily. Hardy and vigorous.	
BROAD LEAVED BATAVIAN75
Leaves are upright, broad, more or less twisted, bright deep green. Inner leaves form a head which blanches readily.	

GARLIC

GARLIC SETS OR BULBS30
-----------------------------------	-----

KALE OR BORECOLE

DWARF GERMAN GREEN65
Sown in the spring for greens. Hardy, prolific, and with a flavor similar to cabbage.	
TALL GREEN CURLED OR SCOTCH75
Plants are two to three feet tall, bearing long, plume-like, light green leaves.	

KOHL-RABI

EARLY WHITE VIENNA	1.00
Very early, with small tops; bulbs medium size, very light green or white and of fine quality.	
EARLY PURPLE VIENNA	1.00
Similar to the White Vienna except that the bulbs are purple, but with white flesh.	

LEEK

LARGE LONDON FLAG	1.50
The standard variety, hardy and productive.	

LETTUCE

BLACK SEEDED SIMPSON (Black Seed)70
A large, early, loose-heading variety which is always reliable. Leaves are very broad, blistered, crumpled and frilled on the edges; color light green; quality excellent.	
EARLY CURLED SIMPSON (White Seed)70
A popular early loose-heading variety of medium size; leaves broad, crumpled, and frilled at the edges; color light green; quality good.	
EARLY CURLED SILESIA (White Seed)70
A medium size, loose-heading variety. Has crisp leaves and is very similar to Early Curled Simpson.	
EARLY PRIZEHEAD (White Seed)70
One of the most popular of loose-leaved varieties. Leaves are crumpled and frilled at the borders; color is green, with light brown borders.	
NEW YORK, WONDERFUL OR MOUNTAIN ICEBERG (White Seed)	1.25
Without question the most popular of head lettuces. Heads are very large, wonderfully solid, crisp, tender and free from bitterness. Heads are of attractive dark green color and often weigh two pounds. Also called Los Angeles and Mountain Iceberg. We can furnish one and two year old lettuce seed. Ask for prices and state quantity desired.	

BARTEDES SEED CANS

Please do not overlook the fact that we can pack your bulk seeds in seed cans without extra cost to you. If you will try our plan one season you will never go back to the old messy way.

ASK FOR PRICES FOR LARGE QUANTITIES

LETTUCE—Continued

	Per lb.
BIG BOSTON (White Seed)	\$0.75
Head large and compact; leaves broad, quite smooth but wavy at the edges; color light green, slightly tinged with brown; heart greenish-white, tinged with yellow. Good for out doors and cold frames.	
MAY KING (White Seed)80
Small, early, with compact heads. Leaves light yellowish-green with reddish-brown edges; heart blanches to a rich golden yellow. Fine quality.	
GRAND RAPIDS (Black Seed)70
A popular loose-leaved forcing variety which does well in the North for early outdoor planting. Leaves are short, blistered and crumpled; color very light green with no trace of brown.	
BARTELDES DENVER MARKET (White Seed)75
Introduced by us. Fine for forcing or open ground. Heads are of oval shape; leaves short, blistered, crumpled and frilled on the edges; color light green.	
HANSON'S (White Seed)75
A reliable header. Matures late; heads large; leaves large and broad, somewhat blistered and crumpled, with frilled borders; color light green; quality good.	
MIGNONETTE (Black Seed)	1.25
A small, early, crisp head lettuce. Plants are compact, with hard, round, well-blanchd heads of medium brown color, with dark greenish tinge. Quality good.	
CALIFORNIA CREAM BUTTER (Black Seed)80
Forms large, round, firm heads. Leaves are broad, blistered, crumpled and thick; color dark, glossy green, lightly tinged with brown. Heads blanch to a beautiful golden yellow. Quality fine.	
ICEBERG (White Seed)80
A late heading variety. Heads are firm, hard and well blanchd; leaves crisp, very broad, quite blistered and crumpled, with frilled borders; color medium green, with touch of brown; quality good.	
PARIS WHITE COS (White Seed)80
A distinct type. Has long, smooth, upright leaves, which blanch nicely when tied up; color medium green; quality fine.	

MUSK MELONS AND CANTALOUPES

Green Fleshed Varieties

	Per lb.
EXTRA SELECT POLLOCK 10-25	\$1.00
A pure strain of high-bred, reselected, hand-cut Rocky Ford Melon. Selected for uniform size, deep flesh, small seed cavity and heavy netting on surface. We can recommend this as the very best type of Rocky Ford.	
ROCKY FORD70
The standard cantaloupe. Melons are small, almost round, smooth, showing no ribs and densely covered with a heavy, hardy gray netting; flesh thick and deep green, showing a tinge of gold at the center. A dandy shipper.	
NETTED NUTMEG75
Small, very early; melons round, flattened at the ends uniform in shape, slightly ribbed and finely netted; flesh bright green and sweet.	
MONTREAL MARKET75
A large musk melon weighing up to 18 and 20 pounds. Melons are round, flattened at both ends, medium green, deeply ribbed and netted flesh very thick and of good quality.	
NETTED GEM75
A fine, small melon. Fruits rather oval shaped, dark green, distinctly ribbed and thickly netted; flesh light green and of fine quality.	
HONEY DEW80
Of the Casaba type. Melons are about ten inches long and not quite round; surface very smooth, hard and without netting, creamy white in color; flesh light emerald green, very thick, tender, and with a distinct, extremely sweet flavor. A good shipper.	
GREELEY WONDER MUSKMELON75

ASK FOR PRICES FOR LARGE QUANTITIES

MUSK MELONS AND CANTALOUPE—Continued

Green Fleshed Varieties

	Per lb.
BARTELDES HONEY NET	\$1.50
A cross between the Rocky Ford and Honey Dew, delicious flavor and an excellent shipper,	
HACKENSACK OR TURK'S CAP75
Melons are round, large, flattened at the ends, deeply and irregularly ribbed, coarsely and heavily netted; flesh thick, green and of good quality.	
EXTRA EARLY HACKENSACK70
An early type of Hackensack. Somewhat smaller, but a week to ten days earlier.	

Yellow Fleshed Varieties

BURRELL'S GEM70
One of the most popular market melons. Melons are oblong, not deeply ribbed, well netted and about 4 1/2 to 6 inches long. Flesh very deep, with an exceedingly small seed cavity. Flesh deep salmon and of excellent flavor.	
OSAGE OR MILLER'S CREAM	75
A main crop, rather large oval melon. Melons are dark green, slightly ribbed, and lightly netted; flesh rich orange salmon, exceedingly thick, with a small seed cavity.	
EMERALD GEM75
A very early variety. Melons are dark green, round, slightly flattened, irregularly but distinctly ribbed and lightly netted; flesh thick, sweet and of deep salmon color.	
PEACH OR GARDEN LEMON	1.00
A distinct type. Melons are about the size of a large peach, oval-shaped and of bright orange-yellow color. Used for sweet pickles and preserves.	
BANANA MELON	80
About two feet long and shaped like a banana. The flesh is of a rich salmon color and has a delicious flavor.	

WATERMELONS

	Per lb.
TOM WATSON	\$.45
The most popular market melon. Melons are large, long, medium green, with tracings of darker green; flesh rich and of good quality. One of the best shippers. Seeds brown.	
HALBERT HONEY50
A large oblong melon with very dark green skin, showing a faint longitudinal tracing; medium early with crimson and very sweet flesh. Seeds white.	
ALABAMA SWEET50
Medium early, oblong and of large size. Skin medium green, irregularly striped with dark green, flesh bright red, tender and sweet. Has a tough rind. Seeds white.	
KLECKLEY SWEETS50
Melons are medium to large in size, medium early, very sweet, and of oblong shape, tapering slightly towards the ends; rind dark green; flesh bright red, ripening nearly to the rind; not a good shipper. Seeds white.	
IMPROVED KLECKLEY SWEETS60
GYPSY OR RATTLESNAKE50
A large oblong melon with very distinct stripes of pale, light green and mottled dark green. An attractive melon and a good shipper. Seeds white.	
CUBAN QUEEN50
A very large melon of round to slightly oblong shape. Rind attractively striped with light and dark green. Meat bright red, solid and sweet. A good shipper. Seeds black.	
DIXIE50
A medium early, large handsome melon of oblong shape. Rind dark green, beautifully striped with light green; flesh bright red and of good quality; a fair shipper. Seeds black.	
ROCKY FORD WATERMELON60

ASK FOR PRICES FOR LARGE QUANTITIES

WATERMELONS—Continued

IRISH GRAY	Per lb. \$.53
A new variety which has become wonderfully popular in a short time. Melons are long, rind a mottled very light green, flesh very firm, free from strings, crisp and sweet; shell hard and tough, making it a fine shipper. Seeds brown.	
FLORIDA FAVORITE50
Oblong in shape and of fair to large size; rind light green, with irregular stripes of darker green. Rather early and of excellent quality. Seeds white.	
ICING OR ICE RIND (Light)50
Medium early and of medium size. Rind very light green, slightly veined and marked with darker green; flesh bright red. Seeds white.	
ICE CREAM OR PEERLESS50
Very early and therefore one of the best for the North. Medium in size, oblong in shape; rind thin, light green, mottled and veined with darker green. Flesh bright red and very sweet. Seeds white.	
COLE'S EARLY50
Very early, hardy, of medium size and nearly round; rind dark green with lighter stripes; flesh deep pink and of fine quality. Seeds black.	
CITRON55
For preserving. Rind striped and marbled with light green. Flesh white and solid. Seeds green.	
KING AND QUEEN90
A winter melon. Have a very hard shell and melons will keep for 90 days if not bruised. Round, with very light colored shell and pink center. Very hardy and drought resistant. Seeds black.	
NEW WONDER65
SWEETHEART50
A large, round to oval, very heavy melon. Rind light green, slightly marked with darker green, rather thick and tough. Flesh bright red and of fair quality. Medium early and a good shipper. Seeds black.	
KANSAS STOCK OR COLORADO PRESERVING55
Melons are of large size, weighing as much as 60 to 70 pounds. Immensely productive. Extremely hardy, growing on almost any kind of soil, and stand dry weather. Melons are long, of dark green color, with white flesh like citron. Seeds green.	
STONE MOUNTAIN70

MUSTARD

SOUTHERN GIANT CURLED	Per lb. \$.35
Very popular in the South. Leaves large, light green, much crumpled and frilled. Plants vigorous, hardy and upright.	
OSTRICH PLUME35
Leaves are long, ruffled and curled like an ostrich plume. Very ornamental. Good as a salad and as greens.	
CHINESE35
Leaves are large, light green and crimped at the edges. Of sweetly pungent flavor.	
BLACK OR BROWN35
Leaves oblong and broad. More pungent than the white. Seed reddish-brown.	
WHITE35
Leaves rather small, smooth and deeply divided. Seeds large and light yellow.	

OKRA OR GUMBO

WHITE VELVET	Per lb. \$.35
Distinct from the other varieties in that the pods are not ridged but perfectly smooth and round. Plants are tall and pods long and of a velvety white color.	
TALL35
Grows to a height of five feet. Pods usually eight ridged and about 6 inches long.	
DWARF35
Of dwarf growth, short podded but productive.	

MUSHROOM SPAWN

IN BRICKS	Per brick, \$ 20

ASK FOR PRICES FOR LARGE QUANTITIES.

ONIONS

American Yellow Varieties

	Per lb.
PRIZETAKER	\$1.40
Very popular. Onions are of large size, mild, globe shaped and of light straw color	
YELLOW GLOBE DANVERS	1.40
An excellent round onion; flesh white and of mild flavor, skin brownish-yellow; productive and a good keeper.	
FLAT YELLOW DANVERS	1.25
Similar to the Globe, except that the onions are flatter.	
AUSTRALIAN BROWN	1.25
One of the best keepers. Early, almost round, skin is quite thin and a reddish-brown color; flesh is solid, crisp and mild.	
DENIA	1.50
One of the largest onions. Nearly globe-shaped, slightly flattened, of light yellow color and very mild.	

American White Varieties

WHITE SILVERSKIN OR PORTUGAL	1.85
A large flat white onion of mild flavor. Fine for family use or immediate consumption, but not as good a keeper as the dark varieties. Used for growing onion sets.	
SOUTHPORT WHITE GLOBE	1.90
Of true globe shape, with thin, delicate skin of pure white; flesh is mild, very crisp, fine grained and snowy white.	

American Red Varieties

SOUTHPORT RED GLOBE	1.40
The finest type of red onion. The bulbs are globe-shaped with small necks and of a deep purplish-red color. A splendid keeper and matures a few days later than Red Wethersfield.	
LARGE RED WETHERSFIELD	1.40
The old standard main crop variety. Bulbs are large, rather flat and of deep red color. Very productive and good keepers.	

Imported Varieties

WHITE HARDY WINTER	2.50
To be sown in the fall and wintered over to make bunch onions early in the spring. The mature onions are excellent keepers.	
EXTRA EARLY BARLETTA	2.00
One of the earliest. A handsome, small, white pickling onion; also good for bunching.	
EARLY WHITE QUEEN	2.00
A small, flat, rapid-growing white onion. Used for pickling, bunching and sets.	
MAMMOTH SILVER KING	2.00
The largest of the white, flat varieties. Onions are extremely mild, and both skin and flesh are silvery-white in color.	
GIGANTIC GIBALTAR	2.00
A Spanish onion resembling the Prizetaker, but larger. Onions are of globe shape, with thin, light straw-colored skin; very mild.	
WHITE BERMUDA	4.00
Onions are flat, of light yellow color, and grown very extensively in the South for early market. Our seeds come direct from the Teneriffe Isles.	
CRYSTAL WHITE WAX	5.00
Also from Teneriffe and used in the South. Onions are large, pure white and flat. It is the mildest and sweetest of all onions.	
VALENCIA GRANO (Yellow)	4.00
VALENCIA BABOSA (White)	2.50

PARSLEY

	Per lb.
CHAMPION MOSS CURLED	\$.50
The leaves are of dark green color, finely cut and curled. Plants are compact. The most popular variety.	
PLAIN50
The leaves are flat, deeply cut, dark green but not curled.	
HAMBURG TURNIP-ROOTED60
Grown for the roots, which resemble small, thick parsnips. Used in flavoring soups and stews.	

ASK FOR PRICES FOR LARGE QUANTITIES

PARSNIPS

HOLLOW-CROWN OR SUGAR	Per lb.
The standard variety. Roots smooth, tender and sugary; usually 15 inches long by 3 inches wide.	\$.45

IMPROVED GUERNSEY45
A little thicker but not quite as long as the Hollow-crown.	

PEAS

Early Smooth Varieties

ALASKA	In 2 bu. bag lots per lb.	Smaller quantities per lb.
The standard early variety. Foliage and pods light green; pods 2½ inches long, round, straight and square ended, containing 6 light green peas. Uniform in maturing. Height 2½ feet.	\$0.11	\$0.13
FIRST AND BEST11	.13
Not quite as early as the Alaska. A prolific, smooth, white pea Height 2½ feet.		

Early Wrinkled Varieties

GRADUS OR PROSPERITY13	.15
A popular early, large-podded variety. Foliage and pods medium green; pods 3¼ inches long, semi-round, straight, slightly curved and pointed, containing six to eight large, sweet peas. Height 2½ feet.		
LAXTONIAN15	.17
Similar to Gradus, but not as tall and a little earlier. Pods and vines dark green; pods 3¼ inches long, straight and pointed, containing 6 to 8 large peas. Height 1½ feet		
PREMIUM GEM12	.14
Very popular. Hardy, prolific and uniform. Foliage dark, pods 2½ inches long, nearly straight, well filled to the ends. Of fine flavor and about a week later than American Wonder. Height 1½ feet.		
LITTLE MARVEL14	.16
A superior dwarf sweet pea. Pods heavily set and often produced in pairs, of dark green color and well filled to the end with large peas. Pods about 3 inches long. Height 15 inches.		
NOTT'S EXCELSIOR13	.15
One of the best. Very sweet and prolific. Vines vigorous; foliage and pods light green; pods 2½ inches long, straight and round. Peas green, wrinkled, inclined to be square from packing in the pods. Height 14 inches.		
AMERICAN WONDER14	.15
Vigorous, productive, with dark green foliage and pods. Pods straight, well filled and crowded to the end, 2½ inches long. Seeds green, wrinkled and often square at the ends. Height 10 inches.		
THOMAS LAXTON14	.16
A little earlier, hardier and while the pods are smaller it is more productive than Gradus. Pods medium green, 3¼ inches long, seeds large, wrinkled, cream color, blended with pale green. Height 36 inches.		

Main Crop Varieties

TELEPHONE14	.15
Vines and leaves large and coarse. Pods 4 inches long, nearly straight, rounded at the ends, light green in color and well filled with large tender peas, sweet and of good flavor. Seeds light green and much wrinkled. Height 42 inches.		
EVERBEARING13	.15
Vines vigorous and branching. Pods 3 inches long, broad, blunt, of fair size and light colored. Seeds green, wrinkled and of good size. Height 30 inches.		
CHAMPION OF ENGLAND13	.15
A very popular, large, tender and luscious pea. Hardy and vigorous in growth, foliage medium green. Pods 3 inches long, blunt, medium dark green in color, broad and nearly straight. Seeds light green, very much wrinkled. Height 4 feet.		
IMPROVED STRATAGEM14	.16
A heavy cropper and of vigorous habit. Pods 4½ inches long large, broad, dark green in color. Peas large and of fine quality. Height 20 inches.		
DWARF TELEPHONE13	.15
The result of a cross between Stratagem and Telephone. Season medium, about a week earlier than Stratagem. Pods 4 inches long, broad, straight, rounded at the point, pale green in color and well filled, often containing ten peas. Height 20 inches.		

ASK FOR PRICES FOR LARGE QUANTITIES

Marrowfats and Sugar Peas

WHITE MARROWFAT	\$.09	\$.11
Vines hardy, vigorous, bearing leathery pods near the top. Pods 3 inches long, blunt and of light green color. Height 42 inches.		
DWARF GREY SUGAR13	.15
Pods are edible and used only in that way. Pods are broad, flat and crooked. Height 28 inches.		

PEPPERS

BARTELDES RUBY GIANT	Per lb.	\$2.50
One of the best we have ever grown. A cross between Ruby King and Chinese Giant and has the good qualities of both. The peppers are produced early, are of large size, bright red, and so sweet and mild that they can be eaten raw.		
SWEET SPANISH		2.50
Fruits are cone shaped, 6 inches long by 3 inches in diameter, deep red, sweet and mild.		
RUBY KING		2.25
Early and productive, with dwarf, compact, upright plants. Peppers 4 to 6 inches long and 3 to 4 inches thick, tapering, and of bright ruby-red color; flesh 1/2 thick, sweet and mild.		
GOLDEN DAWN		3.50
It resembles the Ruby King in shape, is mild and of a beautiful golden yellow color. Very attractive.		
LONG RED CAYENNE		3.00
Peppers are about 4 inches long and 1/4 inch in diameter at the base, often curved and twisted, bright red, hot and pungent.		
CELESTIAL		4.00
Ornamental and edible. Bears a great number of small conical pods, which are first creamy yellow and upright, then bright red. Fine for pickling.		
CHINESE GIANT		4.50
One of the best and largest of mango peppers. Plants are short and stocky; fruits are thick, square ended, from 3 to 5 inches in diameter and length; brilliant, glossy red and very mild.		
LARGE BELL OR BULL NOSE		2.50
A standard variety. Fruits three inches long by two inches in diameter, and blunt ended; mild and sweet.		
SMALL RED CHILI		3.00
Peppers about 2 inches long and 1/2 inch in diameter; red and very hot.		
LARGE RED CHILI		2.00
Peppers are 3 inches long and 1 inch thick; bright red, very hot and fiery, ripen early and used in Mexican chili.		

PUMPKINS

SMALL SUGAR	Per lb.	\$.55
Fruits small, round, flattened at the ends, slightly ribbed; skin and flesh dark orange-yellow; of fine quality.		
MAMMOTH TOURS50
An immense pumpkin of oblong shape; skin grayish green, smooth and slightly mottled. Used principally for stock feed.		
TENNESSEE SWEET POTATO70
Early, good keeper, fine grained and of fine quality. Of medium size, bell shaped with neck slightly crooked. Skin cream color, often striped with green; flesh creamy white.		
CONNECTICUT FIELD OR BIG TOM40
The old standard for planting among corn for pies and stock feed. Pumpkins are oblong, flattened at the ends, about 12 to 15 inches in diameter; smooth, hard, reddish-orange and ribbed.		
JAPANESE PIE75
Ripen early, keep well, and excellent for home use. Pumpkins are of large size, shaped like the Cushaw; skin dark green with darker stripes; flesh yellow; seeds have peculiar marks like Chinese letters.		
LARGE CHEESE50
Pumpkins are round and flattened, the diameter being two or three times the length, and ribbed; skin creamy-buff and mottled; flesh is deep, of yellow color and good quality.		
KENTUCKY FIELD30
Similar to Large Cheese. Pumpkins are large, of good quality and excellent for canning.		
KING OF THE MAMMOTH80
The real giant among pumpkins and at the same time an excellent pie pumpkin. Both skin and flesh are of bright orange color. Pumpkins are round, flattened and ribbed. Weigh as much as 200 pounds.		
CUSHAW OR CROCKNECK (White)70
Pumpkins from two to four feet long, decided crooknecked; shell hard, creamy white; flesh yellow, solid and of fine quality.		
CUSHAW OR CROCKNECK (Striped)70
Same as above, except that the squashes have green stripes.		

ASK FOR PRICES FOR LARGE QUANTITIES

RADISHES

Early Round Varieties

	Per lb.
BARTELDES SPARKLER	\$.50
A rapid forcing variety. Roots round, upper half red and lower half white. Crisp and very attractive.	
CRIMSON GIANT GLOBE50
The largest of the early round varieties. Beautiful red color with pure white flesh which does not get pithy.	
ROSY GEM50
An early round red variety, with white tip. Crisp and tender.	
EARLY SCARLET TURNIP45
The standard early round red radish. Makes quick growth.	
EARLY SCARLET TURNIP, WHITE TIPPED50
A fine forcer. Similar to Scarlet Turnip but with white tip and smaller leaves.	
EARLY SCARLET GLOBE55
Round, slightly oval; rich, deep scarlet; flesh white and tender.	
NON PLUS ULTRA50
Round, medium size, with small top. Early, bright scarlet and one of the best forcers.	

Olive Shaped Varieties

FRENCH BREAKFAST50
Of oblong shape, small and quick growing; scarlet with white tip; good outdoors or indoors.	

Long Varieties

WHITE ICICLE50
The standard long white radish. Early, about 6 inches long and white throughout.	
BARTELDES GLASS50
A beautiful radish introduced by us. Radishes of pink color with white tip, of uniform size, crisp and brittle.	
EARLY LONG SCARLET, SHORT TOP50
The standard long red. Roots about 6 inches in length, uniform, smooth and tender; tops small.	
HALF LONG DEEP SCARLET50
Deep red color, of quick growth, half long and somewhat tapering.	
LONG BRIGHTEST SCARLET OR CARDINAL55
An early long radish, not quite as long as the Long Scarlet. Crisp, tender and a good forcer.	

Summer Varieties

CHARTIERS OR SHEPHERD50
Long, rather thick, scarlet tipped with white. Matures a little later than other long red varieties.	
WHITE STRASBURG55
Skin and flesh white, firm and brittle; about five inches long and tapering.	
LONG WHITE VIENNA OR LADY FINGER50
6 to 7 inches long, slender and tapering at the top. Sometimes tinged with green at the top. Early maturing.	

Winter Varieties

WHITE CHINESE OR CELESTIAL55
A beautiful large white radish for fall and winter trade. Roots 6 to 8 inches long, thick, cylindrical and smooth.	
CHINA ROSE60
Roots 4 to 5 inches long, 2 inches thick, smooth, blunt at both ends, and of deep rose color. Flesh crisp, white and pungent.	
LONG BLACK SPANISH60
Hardy and one of the best for winter use. 8 inches long, 2 to 3 inches thick and almost black. Flesh white, crisp and pungent.	
ROUND BLACK SPANISH60
Similar to the above, except that roots are somewhat top-shaped and about 4 inches in diameter.	

ASK FOR PRICES FOR LARGE QUANTITIES

RHUBARB

LINNAEUS—Early, large and tender.....	Per lb. \$0.80
VICTORIA—Somewhat later than Linnaeus.....	.80

SALSIFY

MAMMOTH SANDWICH ISLAND.....	1.60
Roots are large, white and uniform.	

SPINACH

BLOOMSDALE SAVOY LEAVED, 10 lbs. \$2.2525
Early and hardy, but will go to seed quickly in hot weather. Lower leaves rounded, upper ones pointed, more or less crumpled; color deep green. Fine for market and canning.	
ROUND LEAVED SUMMER, 10 lbs. \$2.2525
Leaves thick, fleshy, bright green. Fine for spring.	
LONG STANDING.....	.25
Matures late. Plants flat, with broad arrow-shaped, nearly smooth dark green leaves.	
LARGE, ROUND, THICK-LEAVED VIROFLAY, 10 lbs. \$2.2525
Leaves are large, broad, thick and arrow-shaped; crumpled and dark green. A good canning variety, as leaves are upright and clean. For either spring or fall planting.	
PRICKLEY OR WINTER.....	.25
Leaves round, thick, dark green and medium-sized. Plants large, vigorous, late in maturing and long standing.	
NEW ZEALAND.....	.40
A distinct type. Plants very tall and spreading; leaves medium green, rather small and pointed; thrives in the hottest weather.	

SQUASHES

EARLY WHITE BUSH (Cymling).....	.65
The common white Patty-pan Squash. About 8 inches in diameter, smooth, creamy white in color, flattened and scalloped.	
MAMMOTH WHITE BUSH.....	.70
10 to 12 inches in diameter; otherwise similar to the above.	
GOLDEN SUMMER CROOKNECK.....	.70
Squashes about 12 inches long, somewhat warted and of bright yellow color. Early, productive and of fine flavor.	
MAMMOTH SUMMER CROOKNECK.....	.70
Fruits about twice as large as the preceding. Very attractive and fine for market or home garden.	
GREGORY'S DELICIOUS.....	.75
A top-shaped squash of medium size; color dark green with some lighter green markings; flesh is very thick, dry, orange color, fine grained and of a sweet rich flavor.	
HUBBARD.....	.75
The standard winter squash. Fruits are large, somewhat warted, dark green with some lighter markings; flesh bright orange-colored, fine grained, thick and dry. A splendid keeper.	
WARTED HUBBARD.....	.75
Similar to the above but heavily warted and very dark green.	
GOLDEN HUBBARD.....	.75
Smaller than the Hubbard and of orange-red color. Moderately warted, a good keeper and of fine quality.	
SIBLEY OR PIKE'S PEAK.....	.75
Squashes are of large size, oval in shape but tapering toward the blossom end; skin smooth and of dark olive-green color; flesh golden yellow; a good keeper of good quality.	

TOBACCO

HAVANA.....	4.00
Fine stock from Havana.	
CONNECTICUT SEED LEAF.....	4.00
Hardy and adapted to the Middle and Northern States.	
MISSOURI BROAD LEAF.....	4.00
Splendid for cigar wrappers.	
WHITE BURLEY.....	3.00
Grown for the manufacture of fine-cut and plug.

TOMATOES

	Per lb.
KANSAS STANDARD	\$4.00
Potato leaved and one of the best for the Middle West. Fruits are of bright glossy red color, round, slightly flattened, ripening close to the stem, perfectly smooth, very few seeds, with firm and thick flesh which is of excellent flavor. Good keepers and produced in clusters of 4 to 5.	
McGEE	2.50
BONNIE BEST	3.00
A very smooth, solid and uniform bright red Tomato. Has an abundance of foliage which protects the fruits from the hot sun. Matures in 100 days.	
BEAUTY	2.50
A large main crop variety borne in clusters of 4 and 5. Very productive, and the Tomatoes ripen very uniformly.	
CHALK'S EARLY JEWEL	2.00
A handsome very early bright red Tomato of fine flavor. Fruits are very meaty, have small seed cavities, not apt to crack, and have a remarkably sweet flavor.	
STONE	2.00
The standard main crop variety for trucker and canners. Always productive. Fruits round, large, solid, smooth and of deep red color.	
PONDEROSA	4.50
The largest Tomato. The immense fruits are solid, meaty and unsurpassed for slicing. Fruits are oblong, somewhat irregular in shape and of a deep purplish color.	
ACME	2.50
An early Tomato of good quality, medium size, and slightly oval in shape. Flesh deep scarlet and solid.	
DWARF CHAMPION	4.00
Plants are of the tree type, dwarf and compact. Fruits are purplish pink, smooth and symmetrical in form, with tough skin. Early and extremely productive.	
THE MATCHLESS	2.00
A good main crop and canning variety. Fruits of rich cardinal red color, free from core, large size and not liable to crack. Have tough skin and are splendid keepers.	
TRUCKERS' FAVORITE	2.50
Smooth, somewhat flattened, thick-meated and very solid. Meat of fine flavor, equally good for cooking or slicing.	
KANORA	7.00
A Wilt Resistant Variety originated by the Kansas Agricultural Experiment Station. The Kanora is a good variety anywhere but is, of course, especially valuable for those regions which are infested with wilt. It is a mid-season or main crop tomato. Fruits are of medium size, bright scarlet, evenly colored, very deep and globular and smooth. The stem cavity is small. Fruits are firm with thick walls which make this variety an excellent canner and shipper. The heavy foliage prevents sun-scalding and cracking to a large extent. It yields heavily and continues to bear until frost. The Kansas Agricultural Experiment Station honored us by giving us the distribution of the Kanora Tomato and we offer seed which was grown from the original stock seed.	
EARLY DETROIT	3.00
A large purple fruited, globe-shaped variety. Tomatoes are smooth, solid and mature early.	
PERFECTION	2.00
One of the standard early red varieties.	
EARLIANA	2.25
One of the best among early bright red tomatoes. Fruits of good size, round, very smooth and solid, and produced in clusters in the center of the plant.	
JUNE PINK	3.50
The best extra early pink fruited variety. Very similar to Earliana, with the exception of the color of the fruit.	
JOHN BAER	2.50
An early, productive, uniformly smooth, round and solid tomato. Fruits are red and of fine quality.	
MARGLOBE	3.50

ASK FOR PRICES FOR LARGE QUANTITIES

TOMATOES—YELLOW AND SMALL FRUITED VARIETIES

	Per lb.
GOLDEN QUEEN	\$3.50
A smooth, early, solid, golden yellow tomato of good size.	
GOLDEN PONDEROSA	4.50
A very striking, large yellow tomato which is very similar to its parent the Red Ponderosa. Of fine flavor and very attractive when sliced.	
RED CHERRY	4.00
About the shape and size of a very large cherry. For preserving and pickling.	
YELLOW CHERRY	4.00
Same as above except in color.	
RED PLUM	4.00
Small plum shaped fruits of good quality and red color.	
YELLOW PLUM	4.00
Same as above except in color.	
RED PEAR	4.00
Fruits small, pear shaped and bright red.	
YELLOW PEAR	4.00
Same as above except in color.	
HUSK TOMATO OR GROUND CHERRY	4.00
The small yellow fruit is enclosed in a husk. Very sweet. Can be eaten raw, used in pies, or for preserves.	

TURNIPS

	Per lb.
EXTRA EARLY PURPLE TOP MILAN	\$.50
The Milans are the earliest turnips. Bulbs are of medium size, flat and white with a purple top.	
EXTRA EARLY WHITE MILAN50
Like the Purple Top Milan except the roots are all white.	
EARLY WHITE EGG35
A quick growing egg shaped variety. Roots are smooth, pure white, growing half out of the ground, with small tops and rough leaves.	
EARLY WHITE FLAT DUTCH30
A very popular early, white turnip of medium size and fine quality.	
LARGE EARLY PURPLE (OR RED, TOP) GLOBE30
One of the standard main crop varieties. Round, flesh white, fine grained and sweet; white below and purple or red above.	
PURPLE TOP STRAP LEAVED30
The standard in the middle west. Good for early or late planting. Turnips are flat, of medium size, white below and purple or dark red above ground. Flesh white, tender and fine grained.	
POMERANIAN WHITE GLOBE35
For stock feeding and table use. Very large often weighing 10 to 12 pounds. Globe shaped, slightly flattened; skin smooth and white.	
LARGE WHITE OR COW HORN35
Roots are shaped something like a carrot but generally crooked. 10 to 15 inches long and 2 to 3 inches in diameter. White with a dash of green at the top. Quality good.	

Yellow Varieties

AMBER GLOBE OR YELLOW STRAP LEAVED35
Large, hardy, and a good keeper. Flesh yellow, fine grained and sweet; skin yellow with green top. Very productive.	
GOLDEN BALL OR ORANGE JELLY35
An excellent yellow fleshed turnip. Roots medium size, round, smooth and deep yellow; flesh crisp and firm.	
YELLOW ABERDEEN OR SCOTCH YELLOW	35
A late and long keeper. Roots medium size, round, yellow with purple top; flesh sweet and tender.	
SEVEN TOP25
A distinct variety cultivated for the tops which are used for greens. Used principally in the south where they make greens very quickly.	

RUTABAGA OR SWEDISH TURNIPS

PURPLE TOP YELLOW RUTABAGA40
Hardy and very productive. Roots slightly oblong but terminating abruptly with no side roots; flesh very solid, sweet and well flavored; color bright yellow below and deep purple above ground, leaves small and light green.	
SWEET GERMAN50
Flesh white, hard and firm, apt to be too hard in the early fall but mellow by keeping. Must be sown earlier than the flat turnips.	

ASK FOR PRICES FOR LARGE QUANTITIES

NASTURTIIUMS

	Per lb.
TALL MIXED	\$.50
Usually used for arbor or trellis planting, but do equally well for mass planting without supports. On a trellis they will grow to a height of 6 to 10 feet.	
DWARF MIXED55
Excellent for borders, along paths, and for pot culture. They grow to be about a foot high and are in constant bloom	

SWEET PEAS

EARLY FLOWERING SPENCER MIXED	3.00
For greenhouse and outdoor culture. Bloom fully four weeks earlier than the the standard Spencers.	
SPENCER MIXED90
Flowers of immense size, and beautifully waved and crimped.	
ECKFORD'S MIXED50
The standard Sweet Peas.

B-K PRODUCTS

B-K. DISINFECTANT, DEODORANT, STERILIZER

Used for Livestock, Dairy, Poultry, Personal and Household uses. B-K is a sodium hypochlorite, the harmlessness and efficiency of which are well known to most physicians and sanitary officials. It is a powerful germicide with ten times the germ-destroying power of carbolic acid, yet it is not a poison. Price are:

A combined stimulator and disinfectant for use on golf greens and fine lawns to prevent and control Brown Patch disease.

Retails at 3 oz., 50c; 1 lb., \$2.00; 5 lbs., \$9.00; 25 lbs., \$37.50.

Dealer's discount is
33 1/3%.

Organic mercury seed treatments have become so widely used in past years that dealers have been quick to stock the popular brands. The two leading ones are now merged into one strong, complete line by the formation of the Bayer-Semesan Company. This is a merger of the Seed Disinfectants Division of E. I. du Pont de Nemours & Company, Inc., formerly makers of Semesan, and the Bayer Company, Inc., formerly makers of Bayer Dust.

All sales and advertising effort will be concentrated on the lines mentioned at the left. An extensive advertising campaign is now under way in the national and state farm papers reaching practically every farmer prospect in the great corn, grain and potato growing states.

A special advertising allowance of \$10.00 for advertising in dealers local newspapers is offered to dealers who will place an order for \$100.00 worth of Dubay products before March 1st, 1930.

We urge our dealers to take advantage of this offer and get the advertising free.

Convincing sales aids in adequate quantities will be furnished. These include colorful crop leaflets on all the products, window posters, newspaper electros, metal booklet racks, catalog copy, sales information bulletins, sales letters and moving pictures. Many state experiment stations have reported favorably on these products which protect seeds against certain diseases and generally improve crop quality and yields.

The demand is growing rapidly. Every seed dealer should stock this line. Write today for full details and prices.

ADD AN EXTRA PROFIT TO EVERY SALE
by Suggesting the Proper Seed Treatment
